LinkedIn
Coimbatore, Tamilnadu, India

SUMMARY

I am a motivated and tech-savvy final-year B.E. Computer Science and Engineering student with a strong foundation in programming. I am passionate about developing innovative solutions, including hands-on projects like an AI-powered drone and a mobile application for student learning. My creative and technical skills, along with my ability to engage in effective communication, position me well for a dynamic role in the tech industry.

EXPERIENCE

Onsite Junior Intern, AR/VR — Praya Labs

09/2026

- Completed a one-month onsite internship (Sep 2026), gaining hands-on exposure to AR, VR, 3D environments and interactive app development; built a digital twin of an office in Blender

AR/VR Intern — Ozhli Academy

Date period

- Worked on AR/VR based learning modules, building immersive prototypes and contributing to interactive training experiences

Intern — Novitech

Date period

- Gained valuable industry experience and contributed to team projects during the internship period

EDUCATION

B.E. Computer Science and Engineering

08/2020

Akshaya College of Engineering and Technology — Coimbatore

Higher Secondary Certificate

06/2020 – 05/2022

Palani Goundar Hr Sec School

PROJECTS

ARVR Interviewer

An AR/VR-based mock interview platform that simulates realistic interview scenarios, helping students practice and build confidence through immersive, interactive sessions.

SKILLS

AR/VR Development | Programming | Problem Solving | Blender | Mobile App Development | Team Collaboration

STRENGTHS

Technical Skills

Strong foundation in programming and a passion for developing innovative, real-world solutions.

Creative Skills

Turns complex ideas into practical and user-friendly applications.

Interpersonal Skills

Quick learner with strong problem-solving and public speaking ability.

AREAS OF INTEREST

3D Modelling | Web App Development | Communication

HOBBIES

Photography | Video Editing

KEY ACHIEVEMENTS

Internship Completion Certificate, Praya Labs

Certified for successfully completing the Onsite Junior Intern – AR/VR internship (01–30 September 2026).

Second Prize, Science Club

Recognized for academic excellence and innovation in science.
